+91-8685014330 | Chandigarh | nsmitawa123@gmail.com | [LinkedIn Profile](#) | [Portfolio](#) | <https://github.com/mitawa0001>

Front-end Developer with **2+ years** of expertise in React JS, specializing in building scalable, high-performance web applications. I create visually appealing, user-centric websites using JavaScript, ReactJS, and modern frameworks. Known for problem-solving, I troubleshoot complex issues efficiently while managing and delivering multiple projects to meet client needs with precision.

WORK EXPERIENCE

BuzzClan

Associate - Software Development

Mohali, India

Feb 2024 - Present

- Developed dynamic, user-centric applications with visually appealing interfaces, while maintaining high standards of code quality and performance.
- Optimized application performance by improving speed, scalability, and security using industry best practices, resulting in enhanced user experience and system reliability.
- Collaborated closely with cross-functional teams, providing guidance and support to drive productivity, foster teamwork, and meet project goals.
- Managed weekly Jira sprints and release stages, applying agile methodologies to plan, track, and deliver projects on time with a strong focus on quality.

Vertipride Solutions Pvt Ltd

Web Developer

Amravati, MP(WFH)

April 2023 - July 2023

- Played a key role in the architecture, design, and front-end implementation of a comprehensive web application, including its development.
- Successfully developed and implemented essential features for an IT Company platform, ensuring seamless project listing, search functionalities, and an intuitive user interface.
- Improved frontend performance by optimizing code and implementing efficient rendering techniques, achieving a 20% reduction in page load times and enhancing overall user experience.

TNC Inc.

Frontend Developer

Mohali, India

Aug 2022 - Jan 2023

- Contributed to client POCs, quickly gaining valuable insights by working closely with the team lead from day one.
- Collaborated with design teams and Senior Engineers, learning best practices in web design and contributing to the development of tailored software solutions that met client needs.
- Mastered version control systems like Git, enabling seamless collaboration and efficient codebase management across the team.

EDUCATION

Chitkara University

BBA(Bachelor in Business Administration): 7.1 CGPA

Punjab, India

July 2018 - May 2021

TECHNICAL SKILLS

- Languages & Frameworks:** JavaScript (ES6+), React.js, Redux, HTML5, CSS3, WordPress
- Tools & Libraries:** Babel, MUI, Bootstrap, tailwind, Git
- Relevant Courses:** Namaste React, Namaste javascript

PROJECTS

- **VoltiCare - BuzzNPI**

React Team, BuzzClan

Feb 2024 - Present

- NPI Registry: Implementing filtration based on geolocation and various data fields to optimize search functionality.
- Healthcare & Job Listing Portal: Integrating API data into the frontend for seamless access to healthcare jobs and listings.
- Rebuilding with MUI: Revamping all pages using Material-UI to improve user experience and align with the latest design trends.
- API Integration: Managing the integration of available data from APIs into the frontend for dynamic content delivery.
- User Experience Enhancement: Focusing on improving the overall design and responsiveness to meet current UI/UX standards.

- **CLB**

React Team, BuzzClan

Feb 2024 - Present

- Dashboard Setup: Built a dashboard from scratch, including the design and development of all UI pages.
- Data Fetching: Fetched company-related data, such as user logs and activity, to monitor and display essential information.
- Performance Optimization: Optimized the dashboard, reducing load times by 20% to enhance accessibility and performance.
-

- **IT WebApp**

React Team, Vertipride Solution

Apr 2023 - June 2023

- Internal Branding Project: Developing an internal project to boost the company's brand visibility and client reach.
- Job Listing Onboarding: Onboarding job listings, projects, and new members onto the portal for a more comprehensive company profile.
- Website Architecture & POC: Designed the architecture and created a proof of concept (POC) for the website.
- UI Animations: Implemented animations to enhance the UI's attractiveness and readability, making the interface more engaging.

- **Restaurant - Foxeresto**

Frontend Team, TNC

Aug2022 - jan 2023

- React UI Components: Built all UI components using React hooks for better state and effect management.
- Routing & DOM Manipulation: Implemented routes and performed DOM manipulation as part of component lifecycle management.
- Form Validation & EmailJS: Worked on form validation and integrated EmailJS for email functionalities.
- Filterable Gallery: Developed the functional part of a filterable gallery for enhanced user interaction.

- **ACHIEVEMENTS**

- Awarded for Outstanding Team Contribution.
- Received Appreciation Award for accuracy and efficiency.
- Best Performer Award exceeding project goals and delivering high-quality results.
