PROFESSIONAL SUMMARY

Results-driven Front-end Developer with **2.6 + years** of experience in building scalable, high-performance web applications. Skilled in creating visually appealing, user-centric interfaces using JavaScript, React.js, and modern frameworks. Expert in troubleshooting complex issues, managing multiple projects simultaneously, and consistently meeting client requirements. Combines a strong problem-solving mindset with a keen eye for design to deliver seamless and engaging user experiences.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), React.js, Redux Toolkit, HTML5, CSS3, TypeScript, Python (Basic).
- **AI & LLM Tools:** Claude AI, OpenAI API, Prompt Engineering, AI Agents.
- **Tools & Libraries:** MUI (Material-UI), Bootstrap, Tailwind CSS, Axios, Formik, React Router, React Hook Form, JWT, REST API, Babel, WordPress
- **Relevant Courses & Learning:** Namaste React, Namaste JavaScript, FreeCodeCamp
- **Version Control & Miscellaneous Tools:** Git & GitHub, VSCode, Postman, Confluence, MS Excel, Figma

PROFESSIONAL EXPERIENCE

Software Developer

Feb 2024 - Present

BuzzClan Inc. (IT Consulting Industry)

- Contributed to AI-powered document processing workflows in BuzzRFP, building frontend interfaces for LLM-based document analysis, prompt template management, and automated workload queuing systems.
- Built the Award Onboarding module for BuzzRFP, a multi-tenant CRM platform, implementing multi-step workflows with React and MUI, integrating Google Drive API for document management and QuickBooks Online API for revenue tracking.
- Developed user-focused healthcare and job listing portals with geolocation-based search filtration and dynamic API-driven content, improving accessibility and user experience.
- Built and optimized **Geo Ticket Assist Portal**, designing data visualization components that reduced page load times by 20%.
- Revamped application interfaces using Material-UI, implementing modern design patterns that enhanced usability and system responsiveness.
- Integrated JWT-based authentication with protected routes, token refresh flows, and role-based access control, achieving 100% compliance in security audits.
- Led weekly agile sprints using Jira, coordinating cross-functional teams to ensure timely, high-quality deliveries.
- Collaborated with QA and backend teams to troubleshoot production issues using Postman, Chrome DevTools, and browser logs, reducing critical issue resolution time by 50%.

Frontend Developer

Aug 2022 - Jan 2023

TNC Inc. (Industrial Consulting)

- Built client POCs using React.js and JavaScript, translating business requirements into functional prototypes that secured project approvals.
- Developed responsive UI components in collaboration with design teams and Senior Engineers, implementing pixel-perfect interfaces using HTML5, CSS3, and Bootstrap.
- Managed Git-based version control workflows including feature branches, pull requests, and code merges for seamless team collaboration.

EDUCATION

Chitkara University

Bachelor of Business Administration

Rajpura, India

July 2018 - May 2021
